---

## Career Objective

Quality Analyst with 1.5 year of experience in Manual Testing, API Testing, Functional Testing, and Business Analysis. Experienced in handling end-to-end testing activities for web and mobile applications, requirement analysis, client communication, and defect management. Seeking a challenging position to leverage my testing skills and contribute to delivering high-quality software solutions.

---

## Technical Skills

- **Manual Testing:** SDLC, STLC, Functional, Integration, System, Regression, Smoke, Adhoc, Bug Life Cycle, Test Cases, Test Scenarios, Severity, Priority.
  - **API Testing:** Postman, API Validation, Request & Response Testing, Status Code Validation.
  - **Automation Testing:** Playwright (AI-assisted prompt-based testing), Selenium WebDriver (Basic Knowledge), TestNG, XPath, Page Object Model.
  - **Defect Management:** Bug Reporting and Tracking using Jira & Excel, Defect Analysis, Retesting.
  - **Database:** SQL (Joins, Sub Query, Normalization, DDL, DML, TCL, DCL, DQL).
  - **Business Analysis:** Requirement Gathering, Requirement Analysis, Client Communication, User Story Understanding.
  - **Agile Methodology:** Sprint Planning, Daily Scrum, Sprint Review, Sprint Retrospective.
  - **AI Tools:** AI-assisted Test Case Generation, Prompt-based Test Automation, Test Scenario Generation.
- 

## Professional Experience

### QUALITY ANALYST & BUSINESS ANALYST

**Ocean Softwares Pvt Ltd | May 2025 – Present**

- Independently handled testing activities across 25+ projects, covering web, and mobile applications.
- Managed 5 end-to-end projects independently, including requirement gathering, project coordination, testing, and client demonstrations.
- Conducted Manual, Functional, UI, Integration, Regression, and API Testing using Postman, contributing to high-quality software releases.

- Designed and executed positive and negative test cases to validate business requirements and application functionality.
  - Identified, documented, and tracked defects using Excel-based bug tracking reports and collaborated with developers to ensure timely issue resolution.
  - Worked closely with clients to gather requirements and acted as a liaison between clients and the development team.
  - Verified bug fixes, performed retesting, and ensured quality releases before deployment.
  - Participated in requirement analysis, test planning, test execution, and quality assurance activities throughout the Software Development Life Cycle (SDLC).
- 

## Projects

### Business Networking Platforms – Star Business Forum, Trusted Network & CNI

- Tested business networking platforms designed to help **businesses connect, build professional relationships, share business opportunities, and grow their network.**
- Tested business profiles, networking, posts, connections, referrals, and user interactions.
- Performed Functional, UI, Regression & Integration Testing across web and mobile-responsive platforms.
- Validated end-to-end business workflows, identified defects, and verified fixes before release.

### E-commerce Applications – Web & Mobile

- Performed end-to-end testing for 20+ e-commerce applications across diverse business domains.
  - Tested **Web, Android & iOS** platforms with mobile/tablet responsiveness.
  - Validated **Razorpay & PhonePe** payment integrations using positive and negative scenarios.
  - Performed **Functional, UI, Regression, Responsive & Cross-Browser Testing.**
  - Identified defects, tracked issues, and verified fixes before release.
- 

## Education

B.E. Computer Science and Engineering | Kingston Engineering College | CGPA: 8.01 | 2024
